Claims 24, 25, 27, 30, 32-34, 36, 38-40, 42, 44-46 and 50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The terminology "an acid" (claim 24) is not disclosed or suggested by the specification as originally filed.

Applicant's arguments filed March 24, 2008 have been fully considered but they are not persuasive.

Applicant contends that the support for the terminology "an acid" can be found at paragraph [0027] of the specification. This argument has not been found persuasive. The only acid disclosed in paragraph [0027] of the specification is citric acid. The disclosure of a specific acid does not provide support for the general terminology "an acid", which encompasses all possible acids.

Applicant's arguments filed March 24, 2008 have been considered but are moot in view of the new ground(s) of rejection. .

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
